

*Asiel Design* creates custom designs for each of our clients. Through our experience and expertise we bring design looks to you that have proven to bring *drama* to an event. These looks can be customized to your color scheme, floral choices and event style. We have chosen these looks which combine our unique inventory and our choice of flowers to create the most *impact* available. We would love to meet with you to see how this design look could be adapted to your event. This is a starting point, *call us* to see how we can make your event memorable.

For our Indian Brides who want to create a *regal* environment reminiscent of an Indian Palace we have created a signature look that takes the *grandeur of Bollywood* and infuses it with western influences. We love all the *rich jewel tones* and attention to details. The strung garlands of flowers on the mandap are key to creating an authentic feel as the bride and groom partake in rituals and ceremonies. Garlands for the Jai Mala are made of fresh blooms and beads. *Opulent floral designs* set on an Asiel signature gold curly willow stand continue the excitement as the guests walk into a fabulously designed reception complete with candlelight.
